- AUR70125A Follow workplace occupational health and safety procedures
- AUR70278A Use and maintain workplace tools and equipment
- AUR70314A Contribute to workplace communication
- AUR70421A Establish relations with customers

Description

The expected audience for this Toolbox is apprentices and students in VET in Schools programs undertaking panel beating courses.

The Toolbox has been design to be highly graphical and interactive to meet the hands-on approach to apprentice training.

The content of the Toolbox is organised by the competencies. Each competency has a number of simulated tasks supported by a number of informative “Teach Me About...” resources. The arrangement of the content has been specifically designed to be easily imported into an online learning management platform.

Learners are able to navigate through the competencies by selecting the jobs and tasks associated with them from the Jobs sheets for each competency.
