

Updating your Training and Assessment RPL Guide - #1

An issue has been found for those using the RPL Guide on Macintosh computers.

1. Download the file 'start_mac.zip'.
2. Unzip the file
3. Replace the file 'start_mac.htm' into the root directory of the toolbox.
4. Your computer may ask you if you want to replace the original file. Select 'Yes'.

If you are running off the CD-ROM you will need to copy the contents to your hard-drive.

We recommend that you burn a copy of the amended Toolbox to keep as a master CD-ROM.

If you have any further enquiries or need advice on your Toolbox please email our national help desk on toolboxhelp@flexiblelearning.net.au or phone 1300 736 710.
