

Updating your Training and Assessment RPL Guide - #2

TAADES401A, Element 6, displays a message saying evidence is undefined and nothing is saved. Two files have been provided to fix this issue.

If you are running the Toolbox from the CD-ROM you will need to copy the contents to your hard-drive and make these updates then burn a new CD.

1. Download the file 'user_data.zip'.
2. Unzip the file
3. Replace the file 'user_data.xml' into the 'xml' folder in the root of the Toolbox.
4. Your computer should ask you if you want to replace the original file. Select 'Yes'.

The second file is required for the correct operation of this Toolbox.

5. Download the file 'rpl_guide_setup.zip'.
6. Unzip the file
7. Replace the file 'rpl_guide_setup.exe' into the root directory of the Toolbox.
8. Your computer should ask you if you want to replace the original file. Select 'Yes'.

We recommend that you burn a copy of the amended Toolbox to keep as a master CD-ROM.

If you have any further enquiries or need advice on your Toolbox please email our national help desk on toolboxhelp@flexiblelearning.net.au or phone 1300 736 710.
